Full-Stack Software Engineer with experience building production web applications using React, Next.js, Node.js, TypeScript, PostgreSQL, and MongoDB. Experienced in developing AI-powered SaaS features, authentication systems, admin dashboards, e-commerce platforms, and REST APIs. Focused on writing clean, scalable, and maintainable software.

Experience

Apr 2025 – September 2025

Front-end developer | Craxy.ai company | Remote

- Built production-ready features using **react, Next.js, and typescript**.
- Developed a rich-text editor and proposal generation workflow for ai-powered RFP automation.
- Integrated REST APIs for authentication, proposal management, and AI services.
- Collaborated with designers and backend engineers to deliver scalable user interfaces

DECEMBER 2023 – AUGUST 2024

Front-end Developer | AseelApp Company | Kabul, Afghanistan

- Developed user-facing features for Aseel V2, a humanitarian platform, using Next.js, TypeScript, and Tailwind CSS.
- Developed and improved the Ferni Admin Dashboard by building reusable UI components and integrating REST APIs.
- Implemented QR code-based workflows that connect users to dynamic forms for collecting humanitarian assistance data.

OCTOBER 2024– FEB 2025

FULL-STACK Developer | Industry Umbrella Company | Kabul, Afghanistan

- Built and maintained a full-stack e-commerce platform independently using Next.js, TypeScript, Node.js, Express, and MongoDB.
- Implemented JWT authentication, admin dashboard, product management, filtering, APIs, Cloudinary, and Stripe integration.

Skills

- **Programming:** JavaScript, TypeScript, SQL
- **Frontend:** React.js, Next.js, Tailwind CSS, Responsive Design
- **Backend:** Node.js, Express.js, REST APIs, Authentication (JWT)
- **Database:** PostgreSQL, MongoDB, Prisma ORM
- **Tools:** Git, Docker, Cloudinary, Stripe, Vercel

Education

SEPTEMBER 2019 – SEPTEMBER 2024

Bachelor of Computer Science (Software engineering) | Kabul University | Kabul, Afghanistan
